

Transfer Image

It is surprisingly easy to create beautiful designs on those delicate chocolate bows and truffles we all love.

The answer is chocolate transfer sheets which are transparent acetate sheets made of cocoa butter designs.

We are constantly developing and expanding our design offerings of Halal certified Chocolate Transfer Images, ranging from floral, geometrics, festive and much more, in brilliant shades of colour or beautiful pastels.

So jazz up your chocolate decorations on your cakes, petite fours, truffles for a truly spectacular dessert!
